

## **IET Travel Award for International Travel Report**

**Dr. K. A. Sunitha**

Associate Professor

Department of Electronic and Communication Engineering

SRM University AP

*Conference: International Conference on 6G Communications Networking and Signal Processing (SGCNSP), 2023*

Thanks to the IET Travel Award, I had the invaluable opportunity to participate in the International Conference on 6G Communications Networking and Signal Processing (SGCNSP) took place at NTU@one-north, Singapore on December 27, 2023. I have presented my latest research titled "An Improved Multiple Face Recognition System for Crowd Monitoring Applications Based on Transfer Learning Approach." This was a significant milestone for me as it was my first time attending SGCNSP.

During the conference, I actively engaged with fellow researchers and engineers, presenting our research work to a diverse audience. The experience was enriching as I received numerous thought-provoking questions and feedback that will undoubtedly shape my future research endeavours in this field. It was truly inspiring to exchange ideas and perspectives with experts from various backgrounds, fostering intellectual growth and collaboration.

*Conference Venue: NTU, Singapore*

One of the highlights of the conference was the opportunity to network with academics and professionals specializing in computer vision and artificial intelligence. These interactions not only provided insights into the latest advancements in the field but also facilitated potential collaborations and knowledge sharing. Establishing connections with peers and experts in the industry has significantly contributed to expanding my professional network and fostering future collaborations.

*Recognition from the SGCNSP Conference (certificate and trophy)*

My participation in the SGCNSP conference was a rewarding and enlightening experience, made possible by the generous support of the IET Travel Award. I am profoundly grateful to the Institution of Engineering & Technology for selecting me as a recipient of the IET Travel

Award. The IET's commitment to fostering the professional development of researchers like me through initiatives such as the Travel Award is truly commendable and greatly appreciated.

Thank you !!!
