IET Communities Event Metrics

This report shows cumulative metrics figures for community events that have been reported since the start of the 2023 session, these are a combination of physical and virtual events. Attendance or participation figures for each community activity are an essential metric used to measure success and prove the value of community activity interms of helping the IET fulfil its charitable remit. Participation figures from community activities are one of the key pieces of evidence used when allocating funding to communities. If you have any questions please contact Communities Support on communitiessupport@theiet.org
